 - upcoming training with Jim Sporleder
 - agencies/programs where we'd like to do MRBN ACE's trainings?
- **Homeless Youth Initiatives and Needs?**

Our Vision: A healthy population served by comprehensive, well-coordinated, public health services

Our Mission: The DCC is a representative, district-wide body authorized by the Maine Center for Disease Control and Prevention to engage in collaborative planning and decision-making for essential public health services at the district level.

It serves to mobilize working partnerships in which efforts and resources are combined within the district to produce results that no one community, organization, or sector could achieve effectively or efficiently alone.
